

Impact Report

A MESSAGE FROM OUR FOUNDER

It is important that we share with you the impact that our organization has made within our communities through measurable outcomes. Although it is difficult to accurately report the depth of impact of our services and charitable deeds, we pray that we have positively changed the trajectory of the lives of those that we have served or encountered.

A YEAR WITH UNIQUE CHALLENGES

It is very challenging to fund the many services and charitable deeds that our organization would like to champion. Our persistent goal is to meet the needs of persons in underserved communities. In order to this, we thrive on charitable giving and fundraising.

We will aim to be more vocal in our communities and increase our social media presence to announce our efforts and special events.
